The instant application is deemed to be directed to a nonobvious improvement over the invention patented in Pat. No. Podoleanu et al. US 5,975,697. The improvement comprises as follows:

Claim 1 is allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious said phase delay generating means to delay a phase of at least one wavelength of an optical signal present in said input optical signal, the at least one wavelength is suppressed while other wavelengths are transmitted through the output optical fiber in combination with the rest of the limitations of the base claim. Claims 2-19 and 12-15 depend on claim 1 and therefore they are also allowed.

Claim 16 is allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious focusing both the delayed portion and the non-delayed portion of the collimated beams such that at least one wavelength is suppressed while other wavelengths are transmitted in combination with the rest of the limitations of the base claim. Claims 17, 19 and 20 depend on claim 16 and therefore they are also allowed.
